Parent Feedback Analysis -2016-17

Majority of the Thiru. Vi. Ka Government Arts college students are first generation learners and their parents are not educated. Hence, it is always difficult to collect feedback from the parents. Some of the parents who willingly come forward to give their feedback are noted and analysed. We don't compel the parents if they hesitate to provide the feedback.

This academic year we could collect 123 parent feedback forms and analyze the three questions that gave insight on curriculum.

About 92 percent of the Parents stated that they were happy with the overall development of their wards in communication skills and technical skills. However, they were asking why their wards were still not able to communicate in English freely. About 82 percent of the parents surveyed stated that they were astonished to witness the confidence of their wards which provided them self-respect and self-reliance among them and also the family.
